3 Bedrooms & 2 Baths

Astoria III

A larger version of one of our most popular plans the Astoria II. This plan has a larger kitchen by 3', as well as a larger dining area and bedrooms. There is an additional walk-in closet in the master bath vs. a tub along with a fabulous corner shower. Enjoy separated vanities also. The second bath is more spacious with storage as is the laundry room. The second and third bedrooms also have larger closets.
